OVERVIEW

PERSONAL PROTECTION

FACEMASKS

3-LAYER COMFORT

CHIRURGICAL MEDICAL
FACE MASK TYPE II

CHIRURGICAL MEDICAL
FACE MASK TYPE IIR

FFP2-MASK

MASKS

3-LAYER COMFORT

Lightweight, soft and comfortable protection to wear and effortless breathable

FEATURES

- 3 Ply Disposable Face Mask
- With stretchable earloop
- Offering you full protection from dust and a series of airborne pollutants
- Package includes 50 masks which are disposable
- Ref. 6.4.16 - Comfort mouth-nose mask 3-layer

CHIRURGICAL MEDICAL FACE MASK TYPE II

Protection against liquids and guaranteed wearing comfort

FEATURES

- 3-ply disposable medical face mask
- Type II (acc. to EN 14683:2019)
- Bacterial Filtration Efficiency (BFE): ≥ 98%*
- Elastic ear loops
- Pliable plastic nose piece
- Ref. 6.4.9 - Chirurgical mouth-nose mask 3-layer type II
- 50 pieces/box

CHIRURGICAL MEDICAL FACE MASK TYPE IIR

Protection against liquids and guaranteed wearing comfort

FEATURES

- 4-ply disposable medical face mask
- Type IIR (acc. to EN EN14683)
- Splash resistant layer protection against blood and bodily fluids
- Pliable plastic nose piece
- Elastic ear loops
- Ref. 6.4.9.IIR - Chirurgical mouth-nose mask 3-layer type IIR
- 50 pieces/box

BEARD MASK

Prevents contamination through beard hair

FEATURES

- Material made out of skin-friendly, non-woven PP fabric (polypropylene)
- Cotton elastic band for holding mask in place
- Free of Glass Fibre
- Breathable
- Water resistant
- Dust-proof
- Odourless
- Comfortable to wear
- Light-weight
- Abrasion-proof and tear-proof
- Latex-free

BRUSHES

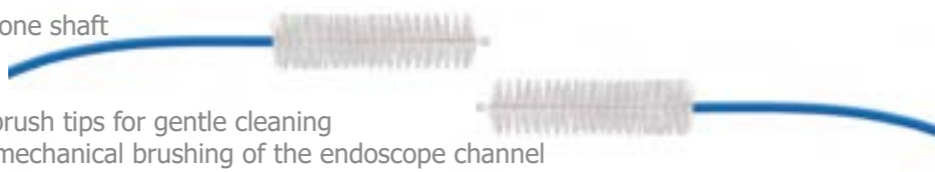

TRADITIONALS

SINGLE/DUAL ENDED CLEANING BRUSHES

- Efficient cleaning thanks to two brushes on one shaft
- Brushes made of soft, durable nylon
- Ideal brush head size, with optimal density
- Ball head on the brush ends and rounded brush tips for gentle cleaning
- Brush-head diameter allows for maximum mechanical brushing of the endoscope channel
- Bend resistant thanks to first-class catheter rigidity

CLEANING BRUSH SETS

PRACTICAL SETS FOR EFFICIENT CLEANING OF WORKING CHANNELS AND VALVES

- High cleaning efficiency
- Rounded brush tips
- Ergonomic handle

CLEANING BRUSH AND TWO-SIDED VALVE-CLEANING BRUSH

- Dual-ended cleanig brush (see page 6)
 - Efficient cleaning thanks to two brushes on one shaft
- Two sided valve and channel cleaning brush (see above)
 - For air and water valves
 - Rounded brush tips for gentle cleaning
 - Brushes made out of soft, durable nylon

CYTOLOGY BRUSHES

BRUSH FOR CYTOLOGICAL ANALYSIS

- Straight and U-shaped
- Micro-brushes
- Ergonomic handle

BRUSH FOR CYTOLOGICAL ANALYSIS

FEATURES

- The straight cytology brush safely reaches deeper-lying tissue
- The U-shaped cytology brush captures a large quantity of tissue all round it
- Microbores for better diagnostic results
- Metal ball head for optimum x-ray visibility
- Protection of the cytologic smear by proven tube closure
- Integrated ergonomic handle for comfortable use

PULL THRU®

UltraZonic is the official distributor for Pull Thru's endoscope channel pre-cleaning brushes. Thereby, we take pride in embracing the newest revolution in the brushing manual pre-cleaning procedure. With many scientific studies proving Pull Thru's efficiency (in contrast to traditional brushes), UltraZonic strongly recommends this advanced, improved way of brushing.

CONTAMINATION

ADVANTAGES

- Disposable: complicated cleaning and sterilisation procedures are no longer required
- Reduces time spent manually cleaning
- Efficient: removes 96% to 100% of the soil with one pass, 100% of the time (traditional brushes: 29% to 91% after 3 passes)
- Less risk of damage the channels (wipers are made of softer material than the channels' material)
- 5 wiper elements design creates:
 - 1) a complete circumferential seal in the lumen tube, removing almost all residue in 1 simple operation.
 - 2) a vacuum which draws detergent into the channels, attacking and removing the remaining soil (also in crevices).

DETERGENT

HOW TO USE:

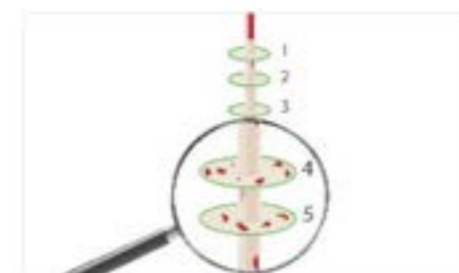

Check wipers against distal end first; if they feel too tight check the channel id from the endoscope manufacturer's manual.

Insert the leader end first.

When the leader exits the scope, pull through the endoscope until the PULL THRU™ Cleaning Brush has passed completely through.

Check for soil on wipers 4 and 5. If there is soil, repeat steps 1-4 again.

Push the leader end through; use short hand-strokes. The PULL THRU™ Cleaning Brush should pass easily through the channel.

PULL THRU®

PULL THRU 2.8-5.0

- Gastro colonoscopes
- Ref: series 3.1.50. +

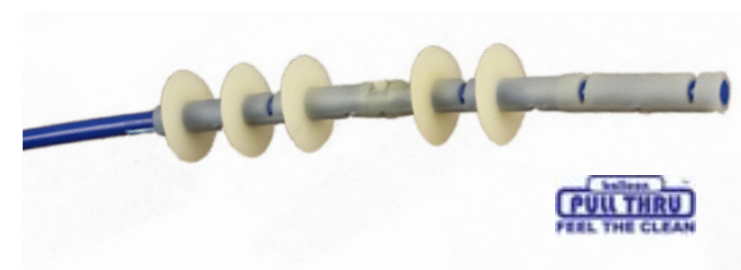

Colour	Channel internal diameter Ø	Working length	Packaging	Price per brush	Price per carton	Reference product code

GI-ENDOSCOPY TUBINGS

LENS CLEANING

CO²

IRRIGATION

PROCESS-SAFE AND EFFICIENT
CLEANING OF OPTICS

- Can be used for 24 hours
- With and without CO₂ connection
- Olympus / Fujifilm / Pentax

EcoFlushCaps®

DISPOSABLE STERILE CONNECTING TUBES

WHAT?

- Process-safe and efficient cleaning of lenses
- Clean connecting tube for sterile water bottle
- Lens rinsing system for all common NaCl bottles during GI endoscopy
- Can be used for 24 hours
- With and without CO2 connection
- Olympus/ Fujifilm/ Pentax
- Disposable designed minimizes infection control risks that are associated with manual cleaning and sterilization

Bottle holder for sterile water bottle for 500 and 100ml
Ref.6.3.24

HYBRIDE CONNECTION TUBE

WHAT?

- Reduced risk of cross-contamination by eliminating the need to clean and reprocess reusable sterile water bottles
- The sterile system can be used for 24 hours
- For connection to all common flushing pump units
- With CO2 hose system
- With hose set and screw cap for all common sterile water bottles
- Flushing including check valve
- For Olympus endoscopes
- Ref. IT-OUS-210

Pieces per carton	PRODUCT CODE

ECOFLUSHCAP ACCESSOIRES

IRRIGATION TUBE FOR OLYMPUS IRRIGATION PUMPS

FEATURES

- Can be used for 24 hours
- Connection for one-time use in the interest of patient safety
- Individually sterile packed
- Ref. IT-ETS-210
- Packaging: 40 pieces/carton
- Pricing: on request

CO2 CONNECTION TUBE WITH FILTER

FEATURES

- Length 120 cm
- 24 h use
- Single-use in order to support patient safety
- Ref. Co2-TU-210
- Packaging: 40 pieces/carton
- Pricing: on request

IRRIGATION TUBE WITH CAP FOR IRRIGATION PUMPS

FEATURES

- Can be used for 24 hours
- Connection for one-time use in the interest of patient safety
- With screw cap for all common sterile water bottles
- Individually sterile packed
- Ref. IT-OUS-210
- Packaging: 60 pieces/carton
- Pricing: on request

JET-CHANNEL ADAPTER

FEATURES

- Used together with the rinsing hose in connection
- With a rinsing pump for flushing with rinsing fluids
- With integrated non-return valve
- Individually sterile packed

Product description	Pieces per carton	Price per carton	Reference product code

BOTTLE HOLDER FOR STERILE WATER BOTTLES

FEATURES

- 1 hook for rail mounting
- With bracket for rear attachment
- 115 x 90 x 100 mm (W x H x D)

Product description	Pieces per carton	Pieces per carton	Reference product code
For 1000 ml Ampuwa bottles and 500 ml Braun rinsing solution	1	on request	6.3.24

PROTECTION

SINGLE -USE VALVES

Greatly reduced
risk of cross-
contamination

VALVES

WHAT?

- Prevent bodily fluids from leaking out
- Minimises cross-contamination risks
- Supports constant performance
- Secure attachment to the biopsy channel opening
- Cap and seal of the biopsy channel opening
- Optimal leak tightness
- Olympus/ Pentax/ Fujinon
- Sterile and non-sterile options available

BIOPSY VALVES

Safe protection of patient and nursing staff

WHAT?

- Cap and seal of the biopsy channel opening
- Prevent bodily fluids from leaking out
- Secure attachment to the biopsy channel opening
- Optimal leak tightness
- Easy opening and closing
- Individually sterile packed

VALVE SETS

It is known that improperly cleaned valves pose a treat for patient safety. Due their complex design, thorough cleaning (and brushing) is required. But even when the reporessing steps are performed according to manufacturer’s instructions, it still not may be enough to guarantee a 100% patient safe endoscope. Our reusable valve sets are designed to tackle those difficulties, eliminating all patient safety risks.

WHAT?

- Valves and adapters in a practical disposable set
- High safety
- Minimises cross-contamination risks due to single use
- Supports constant performance

VALVE SETS

In a practical disposable set

OLYMPUS

FEATURES

Biopsy valve, air/water cleaning valve, air/water valve, suction valve

- Suitable for Olympus OES40, EVIS140, 145, 160, 165, 180, 185, 190, 240, 260, 290

Jet channel adapter

- Used together with the rinsing hose in connection with a rinsing pump for flushing with rinsing fluids
- With integrated non-return valve
- Individually sterile packed

JUMBO BIOPSY FORCEPS

COATED - OVERAL CUPS

FEATURES

- Oval cups with double cup volume compared to standard forceps
- High precision cut avoids risk of tissue damage
- Position markings
- Integrated ergonomic handle
- Incl. tissue sampler
- Individually sterile packed

ALLIGATOR RAT TOOTH FOREIGN BODY FORCEPS

SAFE AND RELIABLE RETRIEVAL

- Firm grip
- Easy manoeuvring
- Ergonomic handle

ALLIGATOR RAT TOOTH FOREIGN BODY FORCEPS

COATED ALLIGATOR RAR TOOTH

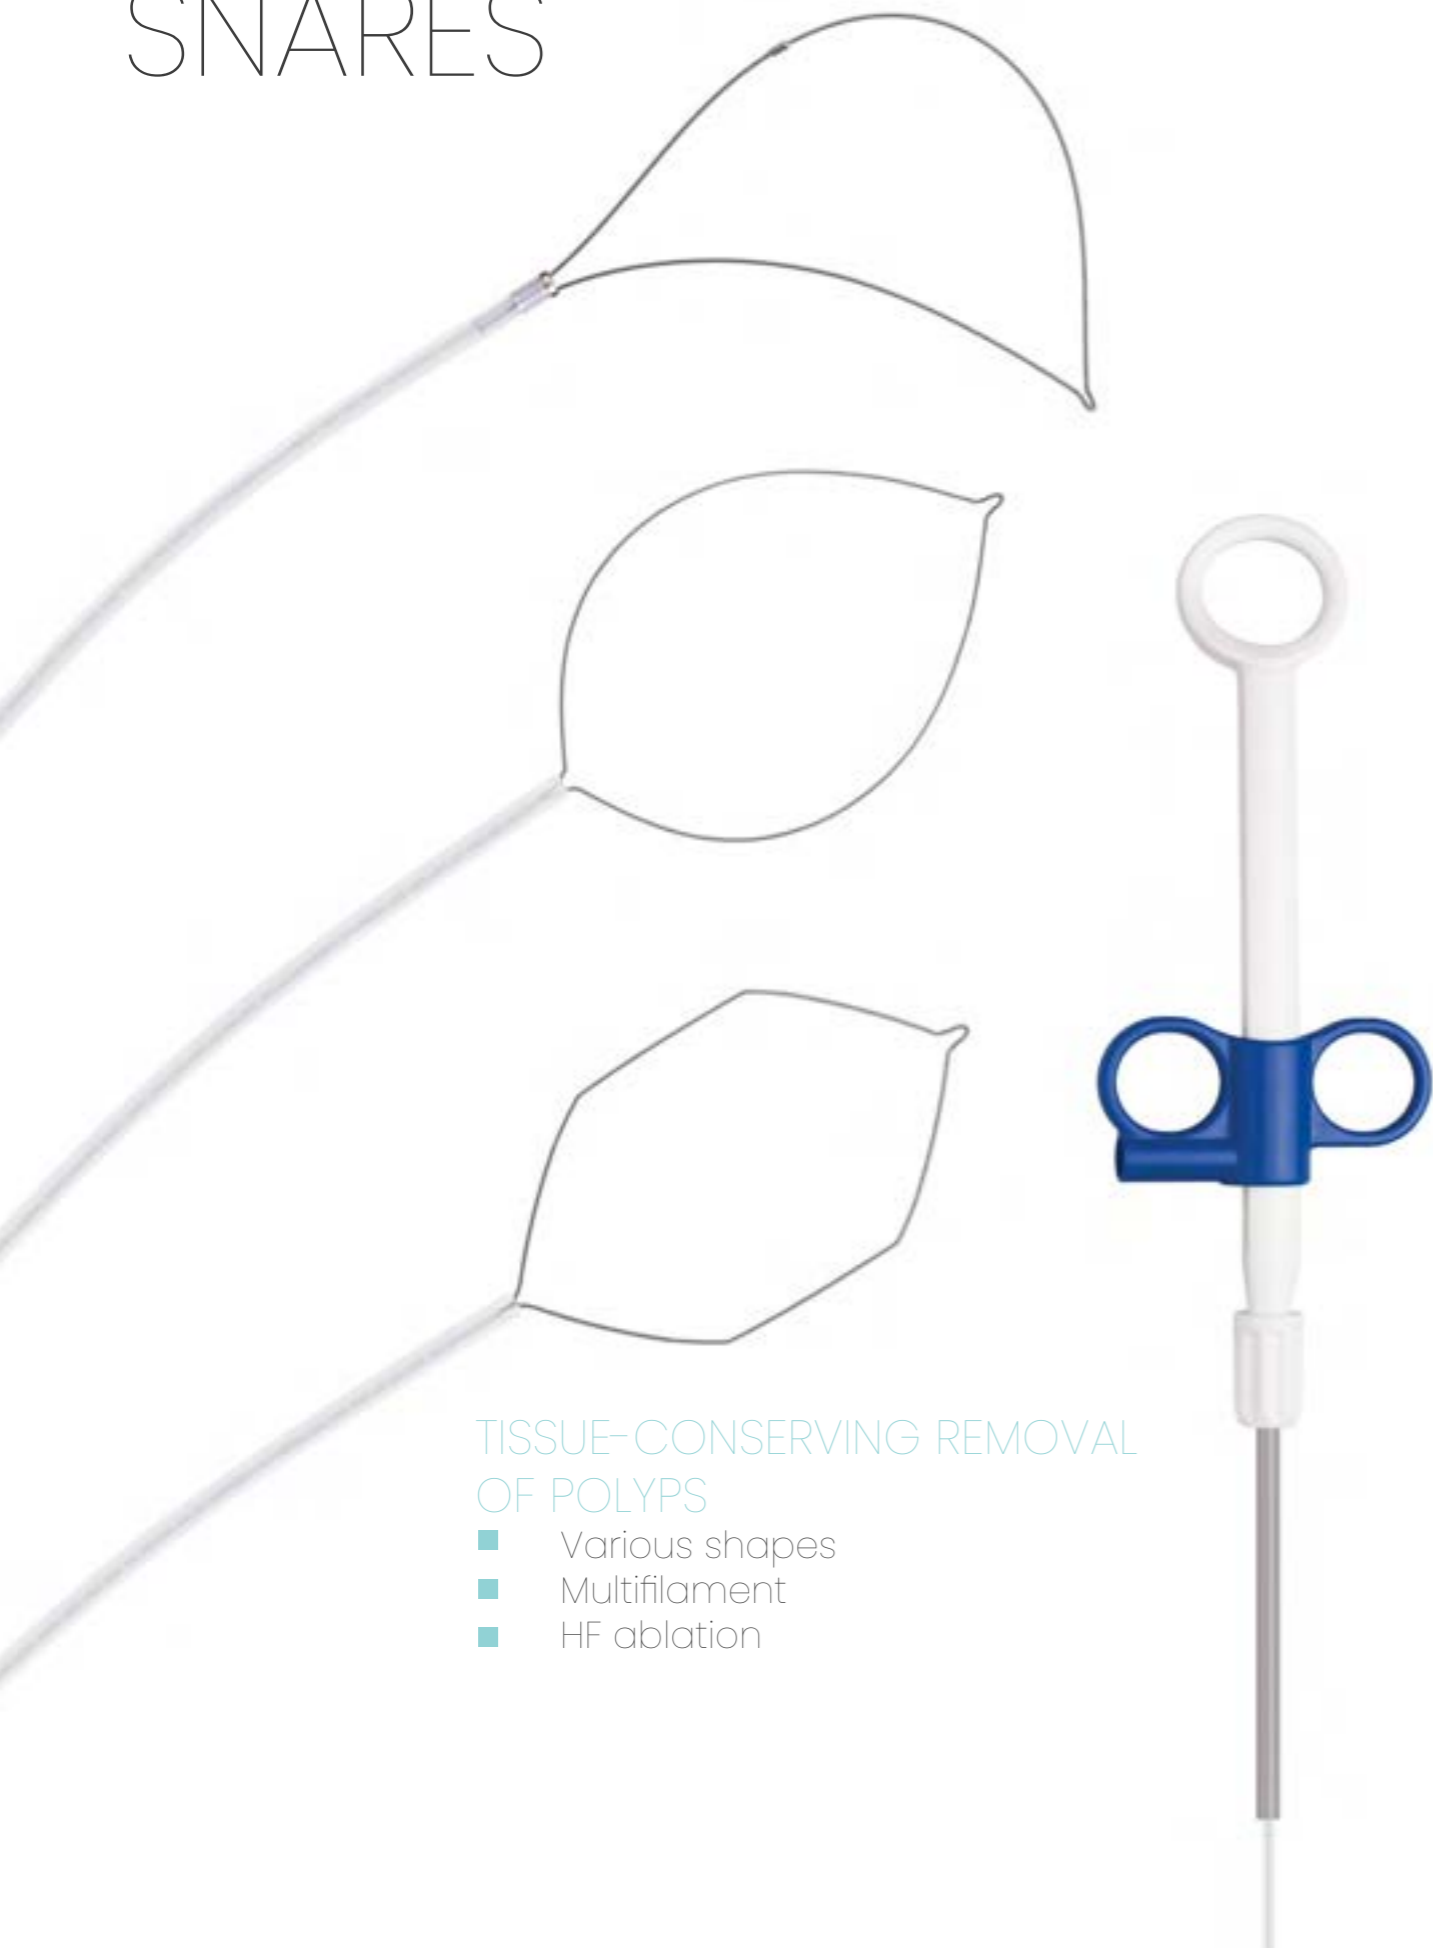

FEATURES

- Combines the advantages of alligator foreign body forceps and rat-tooth forceps to remove a wide range of different foreign bodies safely and reliably
- Easy manoeuvring thanks to position markings
- Integrated ergonomic handle
- Individually sterile packed

ROTATABLE POLYPECTOMY SNARES

EASIER CAPTURING OF POLYPS
THANKS TO ROTATABLE SNARE

- 360° rotation
- Multifilament
- HF ablation

POLYPECTOMY SNARES

HF-ABLATION

FEATURES

- 360° rotation makes it easier to capture polyps
- Gentle tissue removal
- Easy capture and removal even if polyps that are difficult to reach
- Controlled and continuously variable incision that is dimensionally stable and bending-resistant multifilament snare wire
- Integrated ergonomic handle for comfortable use
- Olympus HF connection
- Individually sterile packed

MULTI-STAGE POLYPECTOMY SNARES

UP TO THREE DIFFERENT SIZES IN ONE

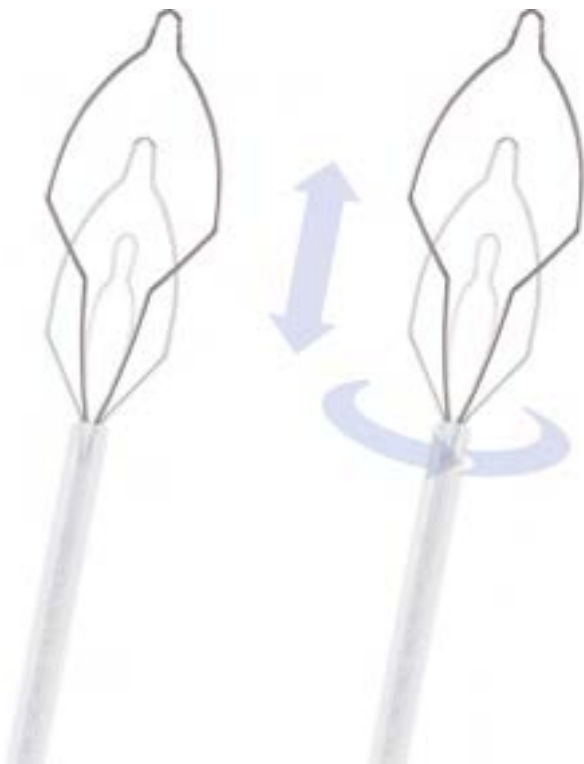

- Multi-stage and 360° rotation
- Multifilament
- Cold ablation

MULTI-STAGE POLYPECTOMY SNARES

COLD ABLATION

FEATURES

- The multi-stage design combines three sizes and shapes in one snare, which makes it unnecessary to replace the snare during a treatment
- The design with additional 360° makes it easier to capture polyps
- Gentle tissue removal
- Easy capture and removal even of polyps that are difficult to reach
- Controlled incision thanks to dimensionally stable and bending-resistant multifilament snare wire
- Integrated ergonomic handle for comfortable use
- Individually sterile packed

HYBRID POLYPECTOMY SNARES

COLD AND HF ABLATION
BETWEEN 3 AND 15 MM

- Multi-stage and 360° rotation
- Multifilament
- Cold and HF ablation

HYBRID POLYPECTOMY SNARES

COLD AND HF ABLATION

FEATURES

- Various opening widths for ablating polyps between 3 and 15 mm with and without HF current
- 360° rotation makes it easier to capture polyps
- Gentle tissue removal
- Each positioning for flat lesions thanks to braided snare
- Controlled incision thanks to dimensionally stable and bending-resistant multifilament snare wire
- Integrated ergonomic handle for comfortable use
- Individually sterile packed

POLYP TRAPS

Collect and identify polyps

FEATURES

- Numbered collection chambers in a transparent transport container for accurate sample identification
- Safety screen keeps tissue from slipping through
- Single use to prevent cross-contamination
- Flexibly connection hoses with attachments for suction pump
- Collect and identify polyps
- Eliminate manual manipulation after retrieval

APPLICATION OF MEDICATIONS AND SOLUTIONS

- Manual needle retraction
- Rounded metal tip
- Protection spiral

TRANSPORT

CONTAMINATED

ENDOSCOPE TRANSPORT SYSTEMS

SAFE METHODS FOR TRANSPORTING PROCESSED AND USED ENDOSCOPES

- Easy to use
- Clearly labelled
- Also for longer endoscopes

ENDOSCOPE TRANSPORT RAY

WHAT

- Moulded trays which are also suitable for longer, flexible endoscopes
- The structured surface of the tray holds the endoscope in place during transport.
- Very stable due to the cardboard's thickness of 900 g/m²
- Low weight
- Light grey cardboard
- Conveniently stackable
- Compostable
- Sterilized by gamma radiation
- Size: 52 x 42 x 10 cm(LxWxH)
- Ref: SUT-52-42-001

SAFE METHODS FOR TRANSPORTING PROCESSED AND USED ENDOSCOPES

- High stability
- Light-weight
- Stackable

CARDBOARD ENDOSCOPE TRANSPORT TRAY WITH REVERSIBLE CC-COVER.

WHAT

- The 'clean' and 'contaminated' smileys are on transparent polyethylene film (PE) and can be changed by turning the cover over.
- The elastic band around the CC-cover is flexible and saves space when rolled up.

Description	Dimensions	Pieces per carton	Price per carton	Reference product code
Cardboard transport tray	52 x 42 x 10cm (L x W x H)	10	on request	SUT-52-42-001
CC-cover made out of PE With 'clean' & 'contaminated' smileys	70 x 58 x 10cm (L x W) (suitable for 52 x 42 x10 cm)	4 x 25	on request	SUT-52-42-LIN
Transport tray & cc-cover set	As described above	10	on request	SUT-52-42-SET

ENDOSCOPE TRANSPORT AND PROTECTIVE COVERS

PROTECTION & CLEAR LABELLING OF PROCESSED AND USED ENDOSCOPES

- Clean" and "contaminated" label
- Transparent polyethylene film (PE)
- Self-closing, flexible elastic band

PROTECTIVE BAG & CC-TRANSPORT BAG (set)

Length x width	Suitable for transport trays to L x W x H	Pieces per carton	Price per carton	Reference product code
S, 70 x 58cm	52 x 42 x 10cm	4 x 25	on request	STB-01-SET
XXL, 95 x 80 cm	64 x 46 x 9cm	4 x 25	on request	STB-02-SET

ENDOSCOPE PROTECTIVE BAG

WHAT

- To protect the endoscope and the transport tray
- Saves space when rolled up
- Self-closing, flexible elastic band

CC-TRANSPORT-BAG FOR TURNING AROUND

WHAT

- 'Clean' and 'contaminated' labels provide clear identification on transparent polythylene film (PE)
- Saves space when rolled up
- Self-closing, flexible elastic band

'CLEAN' TRANSPORT BAG WITH 'CONTAMINATED' FOIL COVER

WHAT

- 'Clean' marking on transparent C-transport bag (PE)
- C-foil-flap with 'contaminated' marking for quick cover of the 'clean' marking
- Simple application
- Saves space when rolled up
- Self closing, flexible elastic band

Length x width	Suitable for transport trays to L x W x H	Pieces per carton	Price per carton	Reference product code
S, 70 x 58cm	52 x 42 x 10cm	4 x 50	on request	SEC-01
XXL, 95 x 80 cm	64 x 46 x 9cm	4 x 25	on request	BEC-01

ENDOSCOPE TRANSPORT DRAWSTRING BAG

Easy transport of processed and used endoscopes

FEATURES

- Large volume, making it also suitable for longer, flexible endoscopes
- Made out of polyethylene (PE), thickness 100µm
- Two drawstrings for closing and carrying the bag easily
- Moisture-proof fleece padding
- Transparent blue inspection window
- Size when unfolded: 100 x 77 cm
- 100% recycable

Length x width	Colour	Pieces per carton	Price per carton	Reference product code
100 x 77 cm	Blue	10 x 20	on request	ETB-001-CL

The endoscope drawstring bags were specially developed for transporting used endoscopes quickly and practically. The disposable drawstring bag meets the minimum requirements for transporting endoscopes safely from point A to point B in hospitals and doctor's offices.

Absorbent fleece padding
Any residual liquid from the used endoscope is safely collected.

Drawstring fastener
Two practical drawstrings for closing and carrying the bag easily

Inspection window
For a quick look at the contents in the drawstring

Saves space when folded up

Open it up and place the endoscope inside

To close, pull the drawstring

CHEMICALS

MULTIGREEN HYGIENE HANDFOAM

-  NO ALCOHOLS
-  SKIN-FRIENDLY
-  BIODEGRADABLE

FEATURES

- All required tests have been passed and met:
EN 1499 antimicrobial hand washing
EN 1276 for bactericidal effect
EN 14476 for full virucidal A/B
- Only natural or nature-identical ingredients
- Dermatologically tested 'very good'
- Positive effect up to 6 hours
- No need to use water
- Practical packaging
- Refill available
- Free of alcohols, peroxide, paraben, aldehyde, chlorine, QAVs
- Ref. 1.3.9 - MultiGreen handfoam
- Price per bottle (100ml): on request

MULTIGREEN SURFACE DISINFECTION

FEATURES

- Area disinfection is effective against following viruses: HIV, HBV, HBC, Influenza A/B, Rota, Adeno, Norovirus, Ebola and Covid-19
Officially confirmed by the Notified Body with CE marking for efficacy and application safety
- Disinfectant based on all natural and nature-identical ingredients
- Used for surface disinfection, or final disinfection for various surfaces in professional institutions (f.e. airplane, buse, ship, food sector, health industry,...)
- Biodegradable: can be used without hesitation in the areas of kitchens, medical practices, kindergartens, hospitals and nursing rooms, dining areas, food reprocessing, laundry room and toilet, etc.
- Vaporized in air conditioning systems: because it's biofilm-dissolving and does not affect breathing and lung function, because it's fully biocompatible
- Also suitable for disinfection of non-invasive medical devices and medical inventory
- Free of alcohols, peroxide, paraben, aldehyde, chlorine, QAVs
- Ref. 1.3.8 - MultiGreen surface disinfection
- Packaging: 2 x 5L
- Price per carton: on request

3 STEP WIPE

WHAT?

- A 3 step solution for the **cleaning and high level disinfecting of non-lumened medical devices** in less than one minute
- Including those that cannot be fully immersed in liquid disinfectant or sterilant and cannot be sterilised by heat.
- Ref: 1.5.121
- Packaging: 6 x 90
- Price per carton: € 616,22

Examples of non-lumened medical devices:

- Nasendoscopes • Transesophageal echo cardio probes (TOE/TEE) • Transvaginal ultrasound probes • Transrectal ultrasound probes • Laryngoscope blades • Intubation endoscopes • Manometry catheters • Diagnostic contact lenses
- Ophthalmic devices • G.I. high resolution manometry catheters • Laser contact lenses • Tonometer prisms
- Ophthalmic ultrasound probes, including (but not limited to) • A-scan and B-scan ultrasound probes • Pachymeters

HIGH LEVEL DISINFECTION IN 1 MINUTE

1

STEP 1: PRE CLEAN WIPE

Eliminates all the organic and proteinaceous matter from the surface of the medical device prior to disinfection, with the help of a non-woven detergent wipe.

2

STEP 2: HLD WIPE

Effectively removes all spores, mycobacteria, bacteria, viruses and fungi in 60 seconds, with the help of a non-woven sporicidal high level disinfection wipe. No messy activators or wetting required. Non-damaging to delicate equipment and no harmful gases given off when used, unlike other peracetic acid or chlorine based wipes.

3

STEP 3: RINSE WIPE

Wipes off all chemical residues from the device that has been disinfected, with the help of a non-woven wipe impregnated with de-ionised water.

VIRUSOLVE+[®] SPORICIDAL WIPES

Tri-enzymatic liquid detergent for the cleaning of medical devices and endoscopes.

FEATURES

- A patented proven HLD (High Level Disinfectant)
- Highly effective as a cleaner and terminal HLD against bacterial spores, mycobacteria, bacteria, fungi, and viruses.
- The product is designed to eliminate the risk of cross-infection from spores, TB, viruses, fungi, and bacteria.
- Ideal for HLD (High Level Disinfection) of medical devices and surgical instrumentation.
- Non-corrosive - will not damage delicate coatings.
- Does not contain chlorine or aldehyde compounds.
- Ref: Soft pack (200 wipes) 1.3.7.200
Tube (220 wipes) 1.3.7.220
- Packaging: wipes: 6 x 200
tube: 10 x 225
- Carton price wipes: on request
tube: on request

ZONIC' NOSOZYM

Tri-enzymatic liquid detergent for the cleaning of medical devices and endoscopes.

FEATURES

- Contains 3 enzymes for optimal result (protease, lipase, amylase)
- Non-foaming detergent
- Non-irritating
- Strong activity on organic soils
- Without PHMB, without NTA, without EDTA, without phosphate
- Odorless
- Contains an easily biodegradable sequestering agent
- Ref: 1.3.5
- Packaging: 2 x 5L
- Price per carton: on request

ENZIQUIRE

- The most efficient detergent in breaking down biofilm matrices of multiple pathogens.
- Less expensive for contaminated scopes than repairs.
- For corrective cleaning of heavily contaminated medical devices.
- Ref: 1.3.6
- Packaging: 24 x 100ml
- Price per carton: on request

Endoscopes

Manual or semi-manual cleaning

Chirurgical instruments

24 x 100 ml

NOSOPROTECT

Highly concentrated mycobactericidal disinfectant for surgical instruments

FEATURES

- A high-performance concentrated solution for the cleaning and disinfection of heat-resistant and heat-sensitive instruments.
- Recommended for all surgical instruments (scalpels, drills, curettes, forceps,...) as well as medical examination instruments (speculum, tweezers,...)
- Effectively removes organic residues and prevents corrosion and instrument discoloration
- Does not contain phenols, aldehydes, chlorine or EDTA
- Packaging: 2 x 5L
14 x 500ml
- Price per carton: 2 x 5L - on request
14 x 500ml - on request

2x5L Ref: 1.5.122

14 x 500ml ref: 1.5.122.500

F.A.C.T.S

Foaming Autoclave Treatment System

FEATURES

- A safe, efficient and quick foaming revitalizing solution.
- Mild acidic solution removes rust, stains, scale, alkaline, and mineral deposits
- Restores original finish
- Non-corrosive: will not harm stainless steel
- Keeps carts and trays looking new
- Simultaneously eliminates all noxious and unpleasant odors
- Leaves no residue
- Non-aerosol pump is environmentally friendly.
- Ref: 1.6.737
- Packaging: 6 x 650 ml
- Price per carton: on request

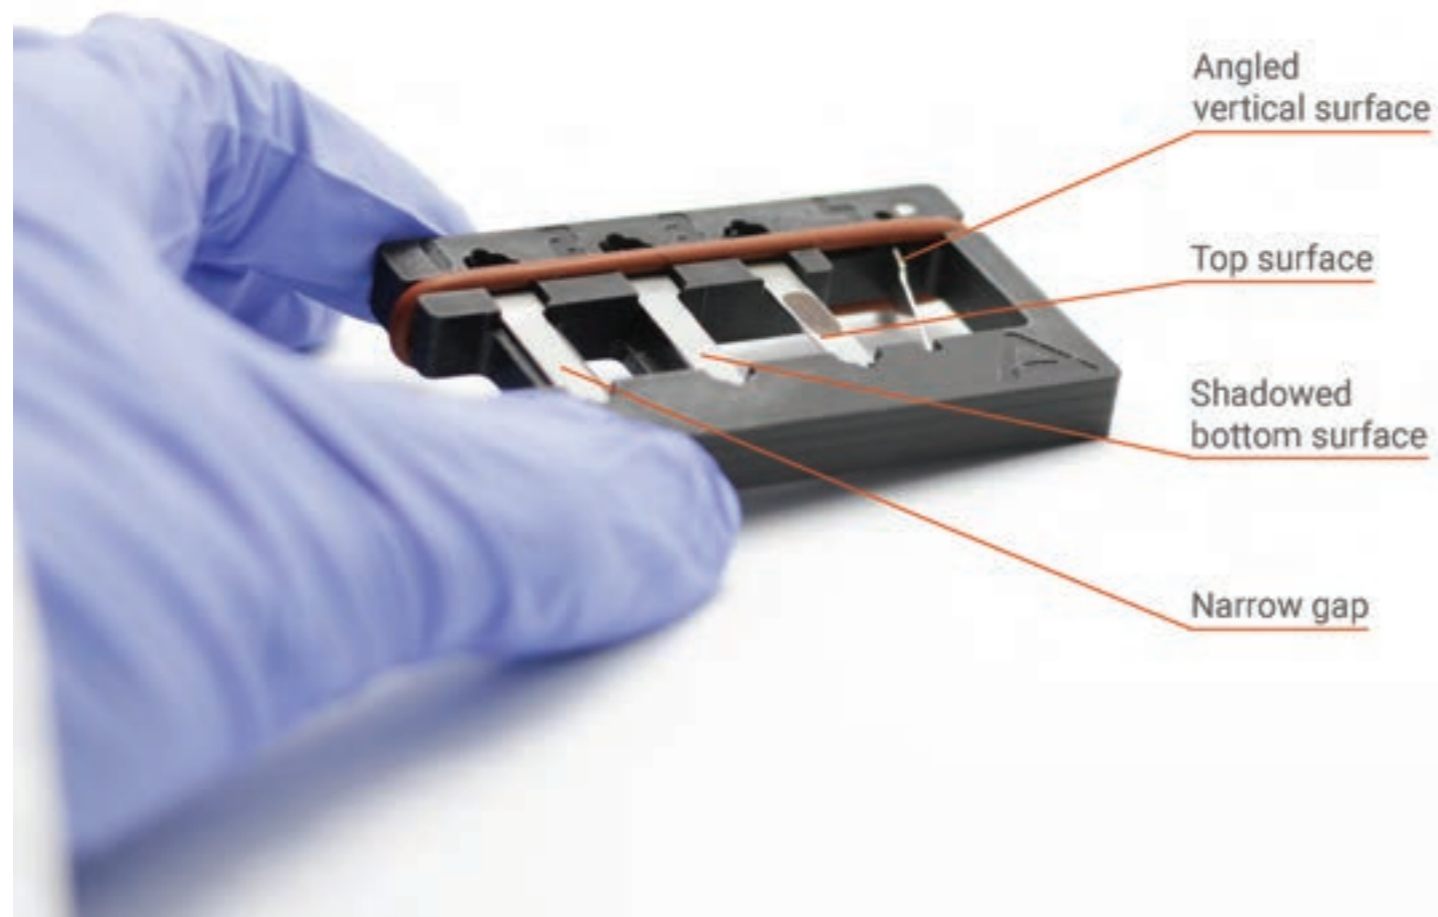

VERIFICATION

VERIFICATION

VeriTest: your new standard in cleaning verification

- **Four-dimensional cleaning evaluation**, simulates different cleaning challenges:
 - shadowed bottom surface
 - narrow gap
 - angled vertical surface
 - and top surface
- Natural, non-synthetic, protein-based test soil
- Compatible with different evaluation methods
- Quantifiable results when used with VeriTest Blue

Typically, process challenge devices only test one surface in one orientation. Since all surgical instruments are multi-dimensional and are not cleaned evenly all around, **it is essential to evaluate all surfaces at the same time to properly verify the process.**

WHY EVALUATE CLEANING?

- Cleaning is the only process that physically removes contamination from instrument surfaces and only clean surfaces can be effectively disinfected and sterilised.
- Cleaning is considered the most difficult and most important of all decontamination procedures.
- Routine verification of cleaning processes is essential to ensure compliance, and patients and staff safety.

multi-dimensional surgical tools need multi-dimensional cleaning verification approach

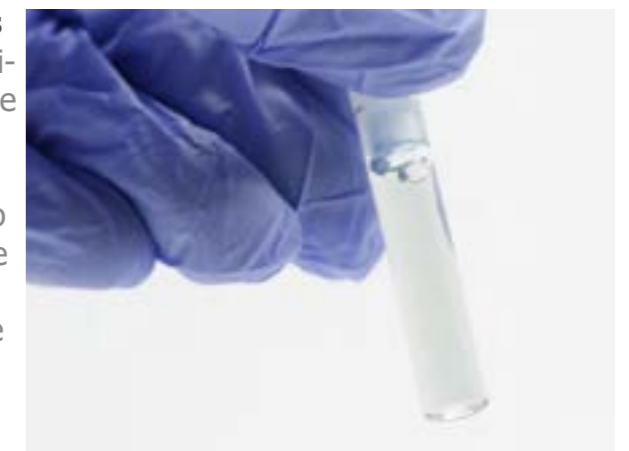

VeriTest Tags: realistic challenge for realistic results

VeriTest Tag is made of 316L stainless steel to cover the largest proportion of surgical instruments. VeriTest Tags are uniquely shaped to ensure you always fit them in the VeriTest Multi correctly. In addition, each tag comes inoculated with unique non-synthetic protein-based test soil.

VeriTest Blue: detects protein residue in minutes

VeriTest Blue is a protein detection system, a vial containing Aseptium's protein sensitive reagent – VeriTest Blue – developed especially for VeriTest Tags.

To verify the process, simply insert the VeriTest Tag into the vial. If proteins are left on the VeriTest Tag after the cleaning process, the reagent will change colour from light green-yellow to blue, or blue residue will be visible on the tag surface.

Ref: 9.ASE1 - Starter pack VeriTest Aseptium (20 Tags, Multi Block, 8 vials)

OVERVIEW

DETERGENTS

1.3.5	Zonic' NosoZym (2 x 5 L)	2 x 5 l	5 litre
1.3.6	EnziQure (24 x 100 ml)	24 x 100 ml	100 millilitres
1.3.7.200	Virusolve sporicidal wipes - soft pack	6 x 200	1 wipe
1.3.7.225	Virusolve sporicidal wipes - tub	10 x 225	1 wipe
1.5.121	3-step solution wipes	6 x 90	1 wipe
1.3.8	MultiGreen surface disinfection	2 x 5L	5 litre
1.3.9	MultiGreen handfoam disinfection	1 x 100ml	100 millilitres
1.3.10	Hydroalcoholic handgel	1 x 5L	5 litre
1.6.737	F.A.C.T.S.	6 x 650 ml	650 millilitres
1.5.122	NosoProtect	2 x 5 l	5 litre
1.5.122.500	NosoProtect 500 ml	14 x 500 ml	500 millilitres

BRUSHES

			
PULL THRU			
Gastro - colonoscopes (Red)			
3.1.50.60.C	Pull Thru 2.8 - 5.0 mm + cassette	8 x 60 +1	1 unit
3.1.50.1200	Pull Thru 2.8 - 5.0 mm refill 1200	4 x 1200	1 unit
3.1.50.180	Pull Thru 2.8 - 5.0 mm refill 180	12 x 180	1 unit
3.1.50.240	Pull Thru 2.8 - 5.0 mm refill 240	12 x 240	1 unit
3.1.50.1.60.B	Pull Thru 2.8 - 5.0 mm + individual brush	8 x 60	1 unit
			
Bronchoscopes (Yellow)			
3.2.48.60.C	Pull Thru 2.8 - 4.8 mm + cassette	8 x 60 +1	1 unit

3.2.48.240	Pull Thru 2.8 - 4.8 mm refill 240	12 x 240	1 unit
3.2.48.1.60	Pull Thru 2.8 - 4.8 mm individual	8 x 60	1 unit
			
Enteroscopes (Blue)			
3.3.50.1.60	Balloon Pull Thru 2.8 - 5.0 mm individual	8 x 60	1 unit
3.3.50.1.60.B	Balloon Pull Thru 2.8 - 5.0 mm + individual brush	8 x 60	1 unit
3.3.48.1.60	Balloon Pull Thru 2.8 - 4.8 mm individual	8 x 60	1 unit
3.3.48.1.60.B	Balloon Pull Thru 2.8 - 4.8 mm + individual brush	8 x 60	1 unit
			
Cystoscopes (Green)			
3.4.26.60.C	Mini Pull Thru 1.4 - 2.6 mm + cassette	8 x 60 +1	1 unit
3.4.26.180	Mini Pull Thru 1.4 - 2.6 mm refill 180	12 x 180	1 unit
3.4.26.360	Mini Pull Thru 1.4 - 2.6 mm refill 360	12 x 360	1 unit
3.4.26.1.60	Mini Pull Thru 1.4 - 2.6 mm individual	8 x 60	1 unit
3.4.26.1.60.B	Mini Pull Thru 1.4 - 2.6 mm + individual brush	8 x 60	1 unit
			
Da Vinci & ORL endoscopes			
3.5.12.60.C	Micro Pull Thru 1.0 - 1.2 mm + cassette	8 x 60 +1	1 unit
3.5.12.180	Micro Pull Thru 1.0 - 1.2 mm refill 180	12 x 180	1 unit
3.5.12.360	Micro Pull Thru 1.0 - 1.2 mm refill 360	12 x 360	1 unit
3.5.12.1.60.B	Micro Pull Thru 1.0 - 1.2 mm + individual brush	8 x 60	1 unit
3.5.12.1.60.220	Micro Pull Thru 1.0 - 1.2 mm individual 220 cm	8 x 60	1 unit
3.5.12.1.60.110	Micro Pull Thru 1.0 - 1.2 mm individual 110 cm	8 x 60	1 unit
			
Push Thru			
3.6.59.60	Push Thru 2.8 - 5.0 mm	1 x 60	1 unit
			
Stubby Brush			
3.7.80.180	Double Stubby Brush 1.2 - 8.0 mm	3 x 60	1 unit
3.7.80.600	Double Stubby Brush 1.2 - 8.0 mm	10 x 60	1 unit
3.7.80.360.S	Single Stubby Brush 1.2 - 8.0 mm	6 x 60	1 unit
			
CLASSIC BRUSHES			
Single/dual-ended cleaning brushes			
For endoscopes with 2.8 - 4.2 mm working channels			
DCBS-23-20-06-230	Single/dual-ended cleaning brushes for endoscopes channel 2.8-4.2 mm - catheter 1.7 mm - L230cm	4 x 100	1 unit
DCBS-23-20-06-230-b	Single/dual-ended cleaning brushes for endoscopes channel 2.8-4.2 mm - catheter 1.7 mm - L230cm - blue	4 x 100	1 unit
DCBS-23-20-05-180	Single/dual-ended cleaning brushes for endoscopes channel 2.8-4.2 mm - catheter 1.8 mm - L180cm	4 x 100	1 unit
DCBS-23-20-05-230	Single/dual-ended cleaning brushes for endoscopes channel 2.8-4.2 mm - catheter 1.8 mm - L230cm	4 x 100	1 unit
For paediatric endoscopes with working channels from 2.0 - 2.8 mm			
DCBS-18-20-03-120	Single/dual-ended cleaning brushes for paediatric endoscopes channel 2.0 mm - L120cm	4 x 100	1 unit
DCBS-18-20-03-180	Single/dual-ended cleaning brushes for paediatric endoscopes channel 2.0 mm - L180cm	4 x 100	1 unit

DCBS-18-20-03-230	Single/dual-ended cleaning brushes for paediatric endoscopes channel 2.0 mm - L230cm	4 x 100	1 unit
For paediatric bronchoscopes with working channels from 1.2 - 1.8 mm			
DCBS-15-15-02-120	Single/dual-ended cleaning brushes for paediatric bronchoscopes working channel 1.2-1.8 mm - L120cm	4 x 100	1 unit
For enteroscopes with working channels from 2.8 - 4.2 mm			
DCBS-23-20-06-300	Single/dual-ended cleaning brushes for enteroscopes working channel 2.8-4.2 mm - L300cm	4 x 100	1 unit
For endoscopes with working channels from 1.0 - 1.5 mm			
DCBS-08-10-15-120	Dual-ended cleaning brushes for endoscopes channel 1.0-1.5 mm - L120cm	4 x 100	1 unit
DCBS-08-10-15-180	Dual-ended cleaning brushes for endoscopes channel 1.0-1.5 mm - L180cm	4 x 100	1 unit
DCBS-08-10-15-230	Dual-ended cleaning brushes for endoscopes channel 1.0-1.5 mm - L230cm	4 x 100	1 unit
			
Multipoint dual-ended brush			
For endoscopes with working channels from 2.8 - 4.2 mm			
MCBS-23-20-06-230	Multipoint dual-ended brush for endoscopes with 2.8 mm working channel - L230cm	4 x 100	1 unit
MCBS-23-20-06-260	Multipoint dual-ended brush for endoscopes with 2.8 mm working channel - L260cm	4 x 100	1 unit
			
Dual-ended sweeper brush for endoscopes			
For endoscopes with working channels from 2.8 - 4.2 mm			
SCBS-23-20-5-300-5-230	Dual-ended sweeper brush for endoscopes with 2.8 - 4.2 mm working channel - L230cm	4 x 100	1 unit
SCBS-23-20-5-300-5-160	Dual-ended sweeper brush for endoscopes with 2.8 - 4.2 mm working channel - L160cm	4 x 100	1 unit
For bronchoscopes with 1.8 - 2.8 mm working channels			
SCBS-18-20-3-300-3-160	Dual-ended sweeper brush for bronchoscopes with 2.0 - 2.8 mm working channel - L160cm	4 x 100	1 unit
SCBS-18-20-3-300-3-120	Dual-ended sweeper brush for bronchoscopes with 2.0 - 2.8 mm working channel - L120cm	4 x 100	1 unit
			
Two-sided (christmas-tree shape)			
For endoscopes with working channels from 2.8 - 4.2 mm			
DCBS-23-20-07/4.5-20-05-230	Dual-ended Xmas Brush for endoscopes with 2.8 - 4.2 mm working channel - L230cm	4 x 100	1 unit
			
Dual-ended Xmas Brush with sweeper brush in the middle			
For endoscopes with working channels from 2.8 - 4.2 mm			
DVBS-23-20-07/4.5-20-05-260	Dual-ended Xmas Brush with sweeper brush in the middle for endoscopes 2.8 - 4.2 mm - L260cm	4 x 100	1 unit
Cleaning brush sets			
			
Cleaning brush and two-sided valve-cleaning brush			
For endoscopes with working channels from 2.8 - 4.2 mm			
DCBS-SET-180-20-05-35-10	Dual-ended cleaning brush set for endoscopes with 2.8 mm working channel - L230cm	4 x 100	1 unit
DCBS-SET-20-05-35-10	Dual-ended cleaning brush set for endoscopes with 2.8 mm working channel - L180cm	4 x 100	1 unit
			
Multipoint dual-ended cleaning brush and dual-ended valve-cleaning brush			
For endoscopes with working channels from 2.8 - 4.2 mm			
MCBS-SET-23-20-06-230	Multipoint dual-ended cleaning brush set for endoscopes with 2.8 mm working channel - L230cm	4 x 100	1 unit
MCBS-SET-23-20-06-260	Multipoint dual-ended cleaning brush set for endoscopes with 2.8 mm working channel - L230cm	4 x 100	1 unit
Valve/channel cleaning brushes			
Two-sided valve/channel cleaning brush			
DVS-30-35-10-20-05-15	Dual-ended valve brush	4 x 200	1 unit
Valve cleaning brush with handle			
SVS-30-35-11	Valve cleaning brush with handle	4 x 200	1 unit
Cleaning brush for albarran lever on duodenoscopes			
SES-30-2-15	Cleaning brush for albarran lever on duodenoscopes	4 x 200	1 unit
			
Cytology brushes			
CYB-18-04-10-120	Cytology brush - straight 120cm length 1.8mm catheter	10 x 10	1 unit
CYB-23-04-10-120	Cytology brush -straight 120cm length 2.3mm catheter	10 x 10	1 unit
CYB-23-04-10-160	Cytology brush -straight 160cm length 4mm catheter	10 x 10	1 unit
CYB-23-04-10-180	Cytology brush -straight 180cm length 2.3mm catheter	10 x 10	1 unit
CYB-23-04-10-230	Cytology brush -straight 230cm length 2.3mm catheter	10 x 10	1 unit
CYB-UB-18-04-10-120	Cytology brush -U-form 120cm length 1.8mm catheter	10 x 10	1 unit
CYB-UB-23-04-10-120	Cytology brush -U-form 120cm length 2.3mm catheter	10 x 10	1 unit

CYB-UB-23-04-10-160	Cytology brush -U-form 160cm length 2.3mm catheter	10 x 10	1 unit
CYB-UB-23-04-10-180	Cytology brush -U-form 180cm length 2.3mm catheter	10 x 10	1 unit
CYB-UB-23-04-10-230	Cytology brush -U-form 230cm length 2.3mm catheter	10 x 10	1 unit

ENDOSCOPE CONNECTORS

4.2.8.010	Olympus Rhino / laryngoscope	1 x 1	1 unit

OVA-DS-23-25-230	Polypectomy snares for gastroscopes and colonoscopes with working channel from 2.6mm - oval length 230cm size 25mm	10 x 10	1 unit
OVA-DS-23-30-230	Polypectomy snares for gastroscopes and colonoscopes with working channel from 2.6mm - oval length 230cm size 30mm	10 x 10	1 unit
OVA-DS-23-35-230	Polypectomy snares for gastroscopes and colonoscopes with working channel from 2.6mm - oval length 230cm size 35mm	10 x 10	1 unit
OVA-DS-23-50-230	Polypectomy snares for gastroscopes and colonoscopes with working channel from 2.6mm - oval length 230cm size 50mm	10 x 10	1 unit

ROTABLE POLYPECTOMY SNARES			
OVA-DR-24-15-160	Rotable polypectomy snares for gastroscopes and colonoscopes with working channel from 2.6mm - oval length 160cm size 15mm	10 x 10	1 unit
OVA-DR-24-20-160	Rotable polypectomy snares for gastroscopes and colonoscopes with working channel from 2.6mm - oval length 160cm size 20mm	10 x 10	1 unit
OVA-DR-24-25-160	Rotable polypectomy snares for gastroscopes and colonoscopes with working channel from 2.6mm - oval length 160cm size 25mm	10 x 10	1 unit
OVA-DR-24-30-160	Rotable polypectomy snares for gastroscopes and colonoscopes with working channel from 2.6mm - oval length 160cm size 30mm	10 x 10	1 unit
OVA-DR-24-10-230	Rotable polypectomy snares for gastroscopes and colonoscopes with working channel from 2.6mm - oval length 230cm size 10mm	10 x 10	1 unit
OVA-DR-24-15-230	Rotable polypectomy snares for gastroscopes and colonoscopes with working channel from 2.6mm - oval length 230cm size 15mm	10 x 10	1 unit
OVA-DR-24-20-230	Rotable polypectomy snares for gastroscopes and colonoscopes with working channel from 2.6mm - oval length 230cm size 20mm	10 x 10	1 unit

REF. ULTRAZONIC	PRODUCT	PACKAGING	UNIT
OVA-DR-24-25-230	Rotable polypectomy snares for gastroscopes and colonoscopes with working channel from 2.6mm - oval length 230cm size 25mm	10 x 10	1 unit
OVA-DR-24-30-230	Rotable polypectomy snares for gastroscopes and colonoscopes with working channel from 2.6mm - oval length 230cm size 30mm	10 x 10	1 unit
OVA-DR-24-50-230	Rotable polypectomy snares for gastroscopes and colonoscopes with working channel from 2.6mm - oval length 230cm size 50mm	10 x 10	1 unit

MULTI-STAGE POLYPECTOMY SNARES			
MST-CS-24-02-10-230	Multi-stage polypectomy snare length 230 cm and 0.25mm thickness	10 x 10	1 unit
MST-CR-24-02-10-230	Multi-stage polypectomy snare length 230 cm and 0.25mm thickness - rotatable	10 x 10	1 unit
MST-CS-24-03-10-230	Multi-stage polypectomy snare length 230 cm and 0.30mm thickness	10 x 10	1 unit
MST-CR-24-03-10-230	Multi-stage polypectomy snare length 230 cm and 0.30mm thickness - rotatable	10 x 10	1 unit

HYBRID POLYPECTOMY SNARES			
OVA-HYB-24-10-230	Hybrid polypectomy snare length 230 cm and size 10mm	10 x 10	1 unit
OVA-HYB-24-15-230	Hybrid polypectomy snare length 230 cm and size 15mm	10 x 10	1 unit

INJECTION NEEDLES			
IN-23-19-4-230	Injection needle for colonoscopy length 4mm - 1.0m diam.	10 x 10	1 unit
IN-23-19-5-230	Injection needle for colonoscopy length 5mm - 1.0m diam.	10 x 10	1 unit
IN-23-19-6-230	Injection needle for colonoscopy length 6mm - 1.0m diam.	10 x 10	1 unit
IN-23-22-4-230	Injection needle for colonoscopy length 4mm - 0.7m diam.	10 x 10	1 unit
IN-23-22-5-230	Injection needle for colonoscopy length 5mm - 0.7m diam.	10 x 10	1 unit
IN-23-22-6-230	Injection needle for colonoscopy length 6mm - 0.7m diam.	10 x 10	1 unit
IN-23-23-4-230	Injection needle for colonoscopy length 4mm - 0.6m diam.	10 x 10	1 unit
IN-23-23-5-230	Injection needle for colonoscopy length 5mm - 0.6m diam.	10 x 10	1 unit
IN-23-23-6-230	Injection needle for colonoscopy length 6mm - 0.6m diam.	10 x 10	1 unit
IN-23-25-4-230	Injection needle for colonoscopy length 4mm - 0.5m diam.	10 x 10	1 unit
IN-23-25-5-230	Injection needle for colonoscopy length 5mm - 0.5m diam.	10 x 10	1 unit
IN-23-25-6-230	Injection needle for colonoscopy length 6mm - 0.5m diam.	10 x 10	1 unit

HEMOCLIPS			
HC-23-230-9	Heliclip - length 9mm - opening 18mm	5 x 50	1 unit
HC-23-230-12	Heliclip - length 12mm - opening 24mm	5 x 50	1 unit
HC-23-230-16	Heliclip - length 16mm - opening 32mm	5 x 50	1 unit

FOREIGN BODY RETRIEVAL NETS			
FBN-S30-25-230-SU	Foreign body retrieval net - oval - 20 x 30mm	10 x 10	1 unit
FBN-S50-25-230-SU	Foreign body retrieval net - oval - 25 x 50mm	10 x 10	1 unit
FBN-S60-25-230-SU	Foreign body retrieval net - oval - 30 x 60mm	10 x 10	1 unit
FBN-S75-25-230-SU	Foreign body retrieval net - oval - 40 x 70mm	10 x 10	1 unit
FBN-O35-25-230-SU	Foreign body retrieval net - octagon - 35 x 70mm	10 x 10	1 unit
FBN-OR35-25-230-SU	Foreign body retrieval net - octagon rotatable- 35 x 70mm	10 x 10	1 unit

ALLIGATOR RAT TOOTH FOREIGN BODY FORCEPS			
GFR-ALI-16-61-SU	Alligator rat tooth for cystoscopes (urology) from 1.8mm	10 x 10	1 unit
GFR-ALI-18-120-SU	Alligator rat tooth for bronchoscopes with working channels from 2.0mm	10 x 10	1 unit
GFR-ALI-23-160-SU	Alligator rat tooth for gastroscopes and colonoscopes with working channels from 2.8mm - length 160cm	10 x 10	1 unit

	PRODUCT	PACKAGING	UNIT
GFR-ALI-23-230-SU	Alligator rat tooth for gastroscopes and colonoscopes with working channels from 2.8mm - length 230cm	10 x 10	1 unit

GRASPING FORCEPS WITH PRONGS

POL-FR-03-23-230-SU	Grasping forceps with 3-prong grasper	10 x 10	1 unit
POL-FR-04-23-230-SU	Grasping forceps with 4-prong grasper	10 x 10	1 unit
POL-FR-05-23-230-SU	Grasping forceps with 5-prong grasper	10 x 10	1 unit

BITE BLOCKS

BB-05-30-OXY	Bite block adult oxygen - no strap	4 x 100	1 unit
BB-05-30-OXY-T	Bite block adult oxygen - white textile strap	4 x 100	1 unit
BB-05-30-OXY-R	Bite block adult oxygen - rubber strap	4 x 100	1 unit

BB-05-30-30	Bite block adult 25 x 22mm - no strap	4 x 100	1 unit
BB-05-30-30-T	Bite block adult 25 x 22mm - blue textile strap	4 x 100	1 unit
BB-05-30-30-R	Bite block adult 25 x 22mm - rubber strap	4 x 100	1 unit

BB-01-85-50	Bite block adult 27 x 33mm - no strap	4 x 100	1 unit
BB-01-85-50-T	Bite block adult 27 x 33mm - white textile strap	4 x 100	1 unit
BB-01-85-50-R	Bite block adult 27 x 33mm - green rubber strap	4 x 100	1 unit

BB-03-30-33	Bite block pediatric 19 x 16mm - no strap	4 x 100	1 unit
BB-03-30-33-T	Bite block pediatric 19 x 16mm - white textile strap	4 x 100	1 unit
BB-03-30-33-R	Bite block pediatric 19 x 16mm - rubber strap	4 x 100	1 unit
